ENGINEER SUPPLY CATALOG

Sec. 6. Sets of Equipment

(Supersedes Part I, Engineer Supply Catalog, July 1943)

Repair Equipment—Set No. 2

Pneumatic Float, Emergency

1. The Engineer Supply Catalog is published in a series of separate sections. This section (Section 6) is the authorized source of information describing the components of engineer sets of equipment, allowances of which are stated in Tables of Basic Allowances, Tables of Allowances, or Tables of Equipment. - Section 6 is published in pamphlet form, with each set contained in a separate pamphlet.

2. Complete editions of Section 6 are distributed to battalion and higher headquarters. Company headquarters receive copies of those sets authorized for such company in appropriate allowance tables.

3. An Introduction and an Index to the Engineer Supply Catalog are published as Sections 1 and 2, and are distributed to the recipient of any part of the catalog. The Introduction contains a description of the contents and uses of the Engineer Supply Catalog, and an index of Federal stock classes. The Index includes a list of the sets contained in Section 6, and other information. Reference should be made to the Introduction and Index for more detailed information covering the above.

4. Items marked by "X" in Unit of Measure column are expendable in accordance with AR 35-6620.
